

ENgage with Every Moment

The PUGGLE™ Enteral Feeding Pump is designed to complement the lifestyles of people with enteral feeding requirements, so each person can live their best life.

From infants to seniors, the PUGGLE™ Pump's thoughtful, smart design reliably supports patients whether they are resting or on-the-go. Our versatile programs and continuous motor work together to enable better management of enteral feeding. Our system delivers the nutrition and energy that patients need – how they need it, and when they need it.

ENjoy Life Optimized

LCD Screen features a large color display for an at-a-glance view of key settings and progress

Battery provides 20 hours of power with a speedy 2.5 hour charging time

Intuitive Design uses simple buttons and screen instructions for easy-to-manage programming

Intermittent Mode allows programming for up to 8 feeds, then automatically starts the program

Motor features a quiet, continuous peristaltic rotary pump action

Precise Performance with a flow rate and volume accuracy rate of $\pm 5\%$ over one hour

ENGineered with Love

Peace-of-mind with thought-through, intuitive design and reliable performance.
