

# Amsino Announces US FDA 510(k) Clearance for the Puggle® Enteral Feeding Pump and Set

Pomona, California, February 18, 2021- Amsino Medical Group is pleased to announce that it has received the U.S. Food and Drug Administration's 510(k) clearance for its Puggle® Enteral Feeding Pump and Set.

The PUGGLE® Enteral Feeding Pump and Feeding Set are intended to deliver nutrition to both the pediatric and adult feeding tube patient population.

PUGGLE® Enteral Feeding Pump has a quiet, yet powerful peristaltic rotary that is designed for less obstructions in both ambulatory and stationary applications. The PUGGLE® Pump has a large color LED screen and user-friendly interface that allows patients and caregivers to easily navigate through the feeding pump. The PUGGLE®

Enteral Feeding Pump also offers 19 language options for the international market. The PUGGLE® Enteral Feeding Sets are ENFit® compliant and come with a pre-attached Transition Connector.

"The PUGGLE® Enteral Feeding Pump and Set are truly unique and are designed with patient safety and convenience in mind," said Dr. Richard Lee, Chairman and CEO, Amsino. "These innovative products are a great addition to our existing enteral feeding product portfolio, allowing us to serve enteral patients in acute and home care settings with improved patient outcomes. We are very proud of our R&D team and the hard work that led to this significant accomplishment!"
